

Abstract ID #	Title of Poster	Board Number	Location
225	Acupuncture for Managing Cancer-Related Fatigue in Breast Cancer Patients: A Systematic Review and Meta-Analysis	1	A
228	Electroacupuncture for Cancer-Related Cognitive Impairment: A Clinical Feasibility Study	1	B
149	How does pretreatment expectancy influence pain outcomes with electroacupuncture and auricular acupuncture in cancer survivors?	1	C
156	Patients' attitudes, perceived benefits, and harm towards Reishi mushroom utilization in cancer care	1	D
191	A randomized phase III clinical trial of acupuncture for chemotherapy-induced peripheral neuropathy (CIPN) in cancer survivors.	2	A
68	Current state of science supporting acupuncture for the side-effects of cancer treatment	2	B
168	FEASIBILITY AND SAFETY OF IMPLEMENTING AN ACUPUNCTURE RESEARCH PROTOCOL PRIOR TO INTRAVESICAL BCG IN PATIENTS WITH HIGH-RISK NON-MUSCLE INVASIVE BLADDER CANCER: A PHASE I/II RANDOMIZED, CONTROLLED UNBLINDED CLINICAL TRIAL	2	C
171	USE OF ACUPUNCTURE AND ACUPRESSURE IN ADDITION TO STANDARD-OF-CARE CRYOTHERAPY TO DECREASE CHEMOTHERAPY-ASSOCIATED NEUROPATHY SYMPTOMS IN PATIENTS WITH GASTROINTESTINAL MALIGNANCIES RECEIVING OXALIPLATIN-BASED CHEMOTHERAPY REGIMENS: STUDY PROTOCOL FOR A RANDOMIZED, CONTROLLED PILOT AND FEASIBILITY STUDY	2	D
217	Effect of Auricular Point Acupressure on Pain and Inflammatory Markers among Older Adults with Chronic Low Back Pain	3	A
131	GROUP ACUPUNCTURE AND FATIGUE: RETROSPECTIVE REVIEW OF PROSPECTIVE DATA	3	B
143	A combination of Standard drug and Whole plant extract significantly improves survival outcomes in Nitrosomethylurea-induced mammary tumor-bearing Rats.	3	C
18	CCDC85C Inhibits the Proliferation and Metastasis of Colorectal Cancer Cells by Promoting β -catenin Degradation	3	D
210	Exploring anti-cancer effects of cannabinoids and medicinal mushrooms and their interactions with conventional treatments in breast cancer	4	A
218	Exploring the anti-hyperalgesic and anti-inflammatory effects of cannabis-based and mushroom-based formulations and their combination in carrageenan-induced inflammatory pain model in rats	4	B
76	Gut Microbiome as Potential Therapeutic Target of Psychological Distress Management among Colorectal Cancer Survivors	4	C
223	INTEGRATIVE CANCER RESEARCH IN GHANA: BASIC, CLINICAL, AND HEALTHCARE UTILIZATION	4	D
91	Integrative approach in metastatic intrahepatic cholangiocarcinoma: a case report	5	A
121	Integrative Hematology: scientific basis and clinical strategies in blood cancers	5	B
222	Time restricted eating improves response to immunotherapy in head and neck cancer patients.	5	C
117	Integrative therapy in Multiple Myeloma: a case report	5	D
64	INTEGRATIVE TREATMENT IN METASTATIC ESOPHAGEAL NEOPLASIA: COMPLETE HISTOLOGICAL DISAPPEARANCE OF PRIMITIVE AND METASTASTIC NEOPLASIA M. Bonucci1-2; I.H. Ferri1-3; V. Ferrera4; 1-ARTOI Foundation. 2-Service of Integrative Oncology – S. Andrea Hospital – Rome 3-IHF Outpatient Oncology Clinic, Indipendenza Street 20 - Bologna3-Department of Surgery –Italian Dermoprophyllactic Institut (IDI)- Rome	6	A

65	Terapia integrativa nei tumori al seno triplo negativo: studio osservazionale su 48 pazienti M. Bonuccia,b, C. Villivàa, BM. Bonuccia, L. Anellia, F. Andreazzolia,cARTOI FoundationService of Integrative Oncology – S. Andrea Hospital – RomeHematologist, Department of Hematology, Versilia’s Hospital, Lucca, Italy	6	B
66	IPERtermia e sostanze naturali nel pre-intervento del tumore al seno: risposta sicura e buona M. Bonucci1,3; F. Andreazzoli1,2; L. Anelli1; D. Varvaras3; 1- ARTOI Foundation- Rome; 2- Department of Haematology, Versilia Hospital- Lucca; 3- Oncoplastic and Reconstructive Breast Surgeon Director Breast Center, Tiberia Hospital - Rome	6	C
204	Raising awareness: The implementation of medical cannabis and psychedelics used as an adjunct to standard therapy in the treatment of advanced metastatic breast cancer	6	D
32	The impact of music therapy on opioid use in cancer survivors with chronic pain	7	A
34	Interactive Music Therapy for Chronic Pain Management In People With Advanced Cancer: A Mechanistic Study	7	B
176	Predictors of Music Therapy Preference Among Cancer Survivors with Anxiety	7	C
107	Cordyceps Sinensis for Quality of Life in Non-small Cell Lung Cancer Patients with Stage IIB/IIIA after Surgery: A Randomized, Controlled, Pilot Study	7	D
115	Improvement of Cancer anorexia by Shenjiaoyuan oral liquid: A randomized, controlled, pilot study	8	A
185	Investigating Rumination as a Mediator Between Mindfulness and Psychosocial Symptoms in a Diverse Sample of People Living with Cancer	8	B
196	Role of Diet in Preventing Oncogenesis	8	C
212	The Broad Spectrum of Integrative Cancer Research: Basic, Clinical, and Health Care Utilization Perspectives	8	D
4	Complementary and Integrative Medicine in Pancreatic Cancer	9	A
162	Omega-3 Fatty Acids and Breast Cancer: A Scoping Review of Clinical Trials	9	B
172	Optimization of a nutrition and physical activity intervention for colorectal cancer survivors (Tools To Be Fit): Trial in progress	9	C
211	The role of Mindfulness-Based Stress Reduction in improving Cancer-Related Anxiety and Depression in Hematologic Malignancies	9	D
6	Effect of Traditional Korean Medicine Oncotherapy on the Survival, Quality of Life, and Telomere Length: A Prospective Cohort Study	10	A
109	Randomized, multi-centered, and open clinical trials to compare the safety and efficacy of Afatinib and Afatinib + HAD-B1 combination therapy in patients with locally progressive or metastatic non-small cell lung cancer with EGFR mutation.	10	B
220	Selective Immune Modulating Activities of Viscum album and Its Components; A Possibility of Therapeutics on Skin Rash Induced by EGFR Inhibitors	10	C
184	Chemotherapy-Induced Peripheral Neuropathy in Breast Cancer: A Photovoice Project	10	D
231	Utilizing Integrative Medicine Modalities as an Adjunct to Standard of Care Oncologic Therapies	11	A
201	Healthy Lifestyle Screening in the Breast Cancer Center: Creating Institutional Infrastructure to Systematically Support Lifestyle Interventions in Newly Diagnosed Breast Cancer Patients	11	B
178	Sociodemographic Differences in the Musical Tendencies of Cancer Survivors with Anxiety: Implications for Personalizing Music Therapy Approaches	11	C
7	Incorporating Integrative Modalities as Standard of Care in Cancer: Retrospective Analysis of Integrative Oncology Practice Patterns in a Comprehensive Cancer Center	11	D

213	Medicinal Mushroom Supplements in Cancer: A Systematic Review of Clinical Studies	12	A
104	A randomized control trial studying the effects of Fucoidan on fatigue mitigation in cancer patients	12	B
207	Effect of Compound Exercise Therapy on Natural Killer Cell Cytotoxic Activity in Breast Cancer Patients after Curative Surgery.	12	C
202	10-Year Observational Survival Study on an Integrative Naturopathic Treatment Model Including Modulated Electrohyperthermia (mEHT): A Single-Centre Experience.	12	D
113	Evaluation of an Ayurvedic Whole Systems Lifestyle Protocol for Quality of Life in Breast Cancer Survivors: An Exploratory Randomized Controlled Trial	13	A
192	Investigating the Effects of Chair Yoga on Treatment Tolerance and Symptomatic Improvement	13	B
119	An Evaluation of Longitudinal Quality of Life in Patients with Advanced-Stage Cancer Seeking Care at Canadian Naturopathic Oncology Clinics: Outcomes from The Canadian/US Integrative Oncology Study	13	C
120	Intravenous vitamin C in cancer care: An updated review of the literature	13	D
125	Intravenous alpha lipoic acid in cancer care: An updated review of the literature	14	A
126	Artemisinin and its derivatives in cancer care: A literature review and monograph development	14	B
53	Experience of pharmacists with anti-cancer medicine shortages: results of a qualitative study	14	C
127	Patients' and physicians' experiences of communication about complementary and alternative medicine when patients decline conventional cancer treatment: a qualitative study	14	D
78	Mistletoe extract versus placebo in addition to standard treatment in patients with advanced pancreatic cancer: an academic double-blind, randomized, placebo-controlled trial	15	A
124	Urtica comp. gel is highly effective in reducing the need for rescue care in breast cancer patients undergoing radiation therapy	15	B
179	A randomized phase II clinical trial of acupuncture for preventing taxane-induced peripheral neuropathy in early-stage breast cancer patients	15	C
180	Retrospective Study of Patients Prescribed Zhi Bai Di Huang Wan for Hot Flashes	15	D
95	Representation of Race and Ethnicity among Cancer Survivors in Trials of Cognitive Behavioral Therapy for Insomnia (CBT-I): A Systematic Review	16	A
161	"Women have been given so many false representations of what balance looks like that's not achievable": A mixed-methods investigation into how social expectations of women experiencing disability impact care for mothers with cancer	16	B
221	Revitalizing Cancer Care in Northeast Brazil: The PRINTAR Program - Integrating Complementary Practices to Enhance Quality of Life and Medical Education	16	C
61	Effectiveness of group coping skills program to decrease distress and physical symptoms: A preliminary study	16	D
163	Integrative Hematology Oncology Fellowship Program: A Pilot Program of Two Academic Centers	17	A
166	Education about complementary and integrative medicine for oncology health care professionals in Sweden: design & evaluation	17	B
80	The Integrative Oncology (IO) Ambassador Program: A Training Tool to Enhance the Use of IO Modalities Within a Tertiary Care Academic Cancer Center	17	C
82	An Immersive Elective to Enhance Integrative Oncology (IO) Based Care within a Resident Curriculum	17	D
173	Feasibility and dissemination of a standardized psychosocial group coping skills program addressing emotional and physical symptoms	18	A

215	Cancer survivors' experiences sustaining physical activity following a community-based exercise program	18	B
141	Golf Recreational Exercise to ENhance Survivorship (GREENS) for Underrepresented Prostate Cancer Survivors	18	C
139	A Multiphasic Exercise Prehabilitation Study in Surgical Head and Neck Cancer Patients	18	D
167	Using app-based self-monitoring to support physical activity maintenance after an exercise oncology program: Results from a cluster-randomized controlled trial	19	A
63	Acute Effects of Exercise on Fatigue during a Standard of Care Cancer Rehabilitation Program – A Study Protocol	19	B
174	Prehabilitation in Advanced Ovarian Cancer: Study Protocol for a Non-Randomized Feasibility Study	19	C
229	An adaptive physical activity maintenance intervention for cancer survivors: a study protocol	19	D
226	MOVE: Physical therapist teams up to provide virtual breast cancer exercise support group	20	A
227	Effect of a videoconference-delivered physical activity intervention on quality of life in colorectal cancer survivors.	20	B
146	Is More Reflective Engagement More Effective Engagement? A Mixed Methods Analysis of Reflections on a Digital Physical Activity Intervention	20	C
132	Impact of Aerobic Exercise on Chemotherapy-Induced Peripheral Neuropathy (CIPN) in Women Post-Treatment for Primary Breast Cancer	20	D
165	The preliminary efficacy of massage therapy for chemotherapy-induced peripheral neuropathy among cancer patients: a single center experience	21	A
188	Calcium Chemoprevention of Colorectal Cancer: Current Status. Calcium as a single agent vs calcium-rich, red-algae derived-minerals.	21	B
187	Potential Herbal Medicine Candidates for Thyroid Cancer Patients Preparing Radioactive Iodine Therapy: A Literature Review and Preliminary Data Analysis for Iodine Contents in Herbal Ingredients	21	C
98	Selective inhibition of metabolic viability and induction of cell death in cancerous compared to healthy endometrial cells by natural product extracts	21	D
29	The Chemo-Gut Trial: A Double-Blind Randomized Controlled Trial Investigating the Effects of a Multi-Strain Probiotic on Gut Microbiota, Gastrointestinal Symptoms, and Psychosocial Health in Cancer Survivors	22	A
219	Efficacy and Safety of Ginger on the Side Effects of Chemotherapy in Breast Cancer Patients: Systematic Review and Meta-Analysis	22	B
12	Solubilizing turmeric extract using a natural compound for enhanced absorption and health effect	22	C
93	Prevalence of Dietary Supplement Usage Among Oncology Patients Receiving Checkpoint Inhibitors	22	D
110	Based on bioinformatics methods to explore the molecular markers of the effect of Traditional Chinese medicine on colorectal cancer	23	A
111	Machine Learning Based Prognostic Model of Chinese Medicine Affecting the Recurrence and Metastasis of I-III Stage Colorectal Cancer: A Retrospective Study in China	23	B
216	Impact fo traditional East Asian medicine as an add-on therapy on survival and recurrence after surgery for breast cancer: A systematic review and meta-analysis	23	C
57	Differences in cancer survivors' engagement with a videoconference delivered exercise program between clinical provider E-referral and self-referral	23	D
214	Integrative Oncology (IO) Program Embedded in a Medical Oncology Clinic: The Mayo Clinic Experience	24	A
116	Co-creation of an integrative oncology app - building together from lived experience to address unmet support needs	24	B

175	SUCCESSFUL IMPLEMENTATION OF INTEGRATIVE ONCOLOGY SERVICES IN A COMMUNITY CANCER PROGRAM	24	C
138	We Have Guidelines: Do We Have Equity?	24	D
129	Survivor and Co-Survivor Learning Opportunities in Integrative Oncology	25	A
151	Implementing an acupuncture education program via telehealth for relief of common side effects of cancer treatment: A quality improvement pilot project	25	B
206	The Impact of Cancer Treatment Delay on the 5-year Risk of Mortality among Younger and Older Adults in the Philippines	25	C
49	Can Video Improve Access of Breast Cancer Survivors to Integrative Oncology Services? Evaluation of a Pilot	25	D
67	Access to Medical and Supportive Care for Rural Cancer Patients in Saskatchewan: A Qualitative Study	26	A
118	Availability and Scope of Music-Based Interventions in Oncology: A Review of Public-Facing Websites at NCI-Designated Cancer Centers	26	B
198	Knowledge and attitudes toward medicinal cannabis and complementary and integrative medicine in cancer care	26	C
135	Effects of an Integrative Approach to Cancer Survivorship Care on Psychosocial Symptom Distress: A Case Study	26	D
44	The use of traditional, complementary and integrative medicine in Chinese adolescents and young adults patients with cancer and implications on development of an education programme: a multi-center study	27	A
181	Mixed-Methods Exploration of Attitudes and Beliefs Toward Psychedelic Assisted Therapies (PAT) for Cancer-Related Psychosocial Symptoms in Patients, Healthcare Providers, and Policy Makers	27	B
72	The Time is Now: Creating a Nurse Practitioner-Led Integrative Oncology Clinic	27	C
56	Peri-transplant Vitamin and Micronutrient Status in Allogeneic Hematopoietic Cell Transplantation	27	D
8	ANALYZING THE DEGREE OF COMPLIANCE WITH THE MEDITERRANEAN DIET RECOMMENDATIONS OF ONCOLOGY PATIENTS ACCORDING TO CURRENT SCIENTIFIC EVIDENCE.	28	A
51	Effects of Calorie Restriction and Ketogenic Diet in Breast Cancer Treatment: A Review	28	B
97	PHYSICAL CHANGES AND PSYCHOLOGICAL ISSUES PRIOR TO, DURING AND POST CANCER TREATMENT	28	C
144	Potential harms of Cannabidiol: A Systematic Review and Meta-analysis	28	D
230	Childhood trauma in cancer survivors: prevalence and the role of complementary therapies	29	A
182	Metabolic Oncology: Exploration, Understanding, and Application of this Emerging Field in Whole Patient Oncology Care	29	B
199	Process Improvement in Clinical Documentation: Collaboration of an Integrative Pediatric Team to identify modality interventions, and assessment scales, to facilitate the design of an electronic document and optimize efficiency of data administration	29	C
189	Integrative Medicine Use in Pediatric Oncology Patients	29	D
183	"Able to Take Home Happiness from this Whole Thing": Parent Perspectives of an Active Music Engagement Intervention to Counteract Distress During Their Child's Cancer Treatment	30	A
200	Reversibility of Metastatic Foci and Cyto reduction of primary tumour through Homoeopathy – Possibilities and Scope of Integrative Oncology in Palliative Care	30	B
100	Mindfulness Meditation for Cancer Survivors with Anxiety and Neuropathy	30	C
94	Integration of Ayurveda into Cancer Research Programs	30	D

114	A survey on Cancer patient's expectations and treatment satisfaction from integrative treatment approach of Ayurveda Rasayana therapy (ART) along standard of care (SoC): An Indian perspective	31	A
85	Quality improvement study on the feasibility and potential benefits of a yogic breathing program for cancer survivors and caregivers	31	B
92	Assessing Fidelity in the Development of Yoga Protocols for Chemotherapy Induced Peripheral Neuropathy: Decision-making to Optimize Clinical Trial Adherence	31	C
102	Integrative Menopause Symptom Relief Program (IMSR): Feasibility of an Integrative Telemedicine Program to Address Cancer-related Menopausal Symptoms	31	D
128	Utilization of and Satisfaction with On-demand Mind-Body Therapy Resources Among Cancer Patients at an Academic Cancer Center	32	A
54	Mindfulness across the Cancer Continuum: A Review of Mindfulness Benefits for Oncology Patients and Staff.	32	B
