

Integrative Oncology as Standard of Care: The Time is Now

SIO's 20th International Conference will present an exceptional opportunity to learn about the past, present and future of integrative oncology as well as us celebrate our 20th year. The 2023 theme is "Integrative Oncology as Standard of Care: The Time is Now".

The conference features include keynote, plenary and concurrent sessions, as well as workshops highlighting the latest clinical, research and methodological issues, and offers opportunities to learn about integrative modalities. We will offer a virtual attendance option again this year with limited streamed sessions.
